(a) Coulomb stress change on fault F1
max dCFS (bar)
time (days)
two-way coupled
one-way
(b) Reactivated fault area (CFF >= 0)
area (%)
time (days)
two-way coupled
one-way
(c) Induced events (M >= -1)
cumulative events
time (days)
expected, two-way
catalogue, two-way
expected, one-way
(d) Pressure jump across F1 (injector row)
p_W - p_E (bar)
time (days)
two-way coupled
one-way
